Simply Efficient

INSULATION – VENTILATION - HEAT & COOL - EFFICIENCY

Another great solution that Energy Workshop is introducing to further help landlords ensure compliance

With **LaidBuy** you can **layby your install** for your rental property over set periods*
We simply direct debit a monthly installment and once you reach 75% we will schedule your install to be completed by the final instalment.

There is **No setup fee** – however if you cancel your order or don't keep up with the payments the first instalment is retained as a cancellation / administration fee with any remainder refunded to you.

Lock in the price
No set up fees or interest
Helps you budget for compliance

*6 months with a minimum of \$1200, 12 months with a minimum of \$2400 or 18 months with a minimum of \$3600
